SOIL

Nowadays, Sauvignon is grown in all the Loire Valley but also in many more vineyards of the hexagon (Poitiers area, South-West, Pays d'Oc and all around the Mediterranean sea).

CLIMATE

This widespread cultivation makes it the obvious number one grape of the white aromatic grape-varieties. This particular cuvee is made from a blend of wines from the Loire Valley, Côtes de Gascogne and Pays d'Oc. The master of cellars of our company pays a particular attention to this wine in order to preserve all the elegance and the fineness of this grape-variety.

HARVEST

The grapes have been harvested early September. The conditions of the harvest were really good with a sunny and dry weather. The grape picking is totally realized with machine now. The harvested quantity is about 50 tons / hectare.
