“We have been overwhelmed by the response we have received to our new range, it seems to really resonate with people, both here in Australia and abroad. I am sure it is due to the honesty, simplicity and relaxed nature that the wines reflect” - John Quarisa

The Johnny Q and Treasures range have been designed with an international audience in mind. John's international wine show judging has heavily influenced the styles for both ranges. The labels draw inspiration from John and his family; the fun loving Johnny Q (John actually dressed up for the action shots on the label) while Treasures captures an innocent yet unforgettable moment in time of John and Josephine's children on a family holiday at the beach. Together they display the heartfelt passion John and Josephine feel for their new, exciting venture, their family and their life.
