

MENDOZA

VINEYARDS Lunlunta, Luján de Cuyo, Mendoza.

SOIL

The vineyards are located in Lunlunta, Luján de Cuyo, Mendoza, at 850 meters above sea level. The yield per hectare is 12 tons. Superficial irrigated

WEATHER

Climate with warm days and cool nights, with an average temperature range from 16° C.

WINEMAKING

The harvest is done by hand and takes place during the second week of March.

First we make a short maceration to obtain the color, and then, grapes are pressed. Finally, the alcoholic fermentation is made at low temperature.

TASTING NOTES

MENDOZ

PRODUCT OF ARGENTINA 1

135 ALCAVEL

VINEYARDS MALBEORDSÉ

2018 | RED WINE

1,51

Pale pink color. The nose has deep aromas of violets and blackberries characteristic of the early harvest. On the palate a quince note that reinforces its fresh character along with its high acidity. Has a balanced and smooth finish.
